# FACULTY OF ALLIED HEALTHCARE SCIENCES

2026-2027

## ABOUT US

The Faculty of Allied Healthcare Sciences, Desh Bhagat University, Punjab. The faculty is a global name in the field of Allied Health Sciences since more than 2 decades with a vision to create globally recognized competent subject experts to work in miss-oriented & challenging environment. The faculty has been established keeping in mind the need of increasing demand of Public Health Professionals with particular focus on “Epidemiology/ Nutrition/ Mother & Child Health/ Environment/Adolescent Health/ Rural Health/ Urban Health/Islands Health/ Health in difficult to reach Hilly Areas/Safe water supply & Sanitation, Accidents, Domestic violence, Work place sexual harassment and so on and so forth.”

With the increase of Public Health Problems in all spheres of life the world over, the demand and scope of Public Health Expertise have also increased. It gives us immense pleasure while sharing with you all that Desh Bhagat University has started a four years (8 semesters) course in BPH (Bachelor in Public Health), two years (4 semesters) course in MPH (Master in Public Health) and Ph.D in Public Health with effect from the session of 2024. The candidates are being selected on merit basis either on their own score of qualifying examination or by an entrance test. The process of selection has started and it will continue till the closing date or till the seats are filled up, whichever is earlier. The details of eligibility qualifications and the fee structure are given below for ready reference.

## VISION

To emerge as a premier Public Health International Center in building and furthering Public Healthcare and hygiene, empowering students through unequalled learning environment that will produce good experts to the society.

## MISSION

- Establishing holistic and unique work culture for all the beneficiaries/patients sufferings in day to day life.
- Provision of exceptional, effective and best health care services to one and all.
- Paradigm shift in community regarding personal and community hygiene through proper cognizance.
- Fostering global skills by inculcating value system among learners.

## Key Features

- The DBU Hospital is fully equipped with a comprehensive range of equipment, instruments and advanced materials fulfilling the requirements of all contemporary treatment procedures.
- Class-room teaching is blended with microteaching with the usage of Audio-visual aids and Smart class-rooms.
- Hands-on pre-clinical trainings are followed by clinical training in different streams of Allied Health Sciences with experienced supervisions.
- In order to inculcate a sense of social responsibility various community outreach programs are regularly organized which are equipped with mobile vans.
- Motivational programmes are consistently being organized to bring the awareness in rural masses regarding minor as well as general ailments and their treatment.
- Well-orchestrated schedules of co-curricular activities like conferences, workshops, online courses, guest-lectures are regularly organized by international and national stalwarts.
- A highly endowed Central and Department library with more than 10,000 books has been established. A large number of National and international journals as well as e-journals are being subscribed.
