FACULTY OF AGRICULTURE AND LIFE SCIENCE

- University School of Agriculture Science
- Department of Life Sciences

VISION

- To create globally recognized competent Agriculturist and Scientist to work in multi oriented and challenging environment.

MISSION

- To impart quality education, for enhancement of skills for progression in career and higher education according to student's area of interest.
- To set up a student centered learning atmosphere and develop a research facility for graduate level to inculcate research attitude in students for innovations.
- To make collaboration with industries, distinguished research institution and to become a centre of excellence.

NAME OF STUDENT	PROGRESSION DETAIL
Ms Simran	ADO (Agriculture Development Office)
Ms. Avneet	M.S.c in Agriculture at LPU, Phagwara
Ms. Janavi	M.S.c in Agriculture at Solan University, HP
Mr. Harkaranjot Singh Brar	M.S.c in Agriculture at Mata Gujri College ,Fathehgarh Sahib
Mr. Vishal	M.S.c Agriculture at Canada
Mr. Sandeep Singh	M.S.c in Horticulture, DBU, Mandi Gobindgarh

From the Dean & Director Desk

PROF(DR) HARVINDER KAUR SIDHU
Professor and Dean,
Faculty of Agriculture and Life Sciences, DBU

The Faculty of Agriculture and life sciences University, Desh Bhagat University, Mandi Gobindgarh, Punjab has a vision to create globally recognized competent Agriculturist to work in multi oriented and challenging environment. With this vision the school is dedicatedly working on a mission to impart quality education. The school has been always updating its strategies in light of significant changes in agricultural sector keeping in view the educational vision and mission of school and university as a whole. Academic environment includes good laboratories with highly qualified faculties that explore the theoretical as well as practical knowledge in highly professional manner that can prepare the students to meet the challenges in increasingly competitive world. Our core aim is to enable the students as Agriculture experts to contribute to the society and community with concrete concentrated knowledge.

Programmes Offered

Ph.D IN AGRONOMY

Eligibility: As per UGC norms

Duration: As per UGC norms

M.Sc. HORTICULTURE

Fruit Science | Vegetable Science

Eligibility: B.Sc. (Agriculture) (Hons.) or B.Sc. (Horticulture) 4 years from a recognized University.

Duration: 2 Years

B.Sc. AGRICULTURE

Eligibility: Direct Entry: A candidate must have passed 10+2 Medical and Non Medical from a recognized Board or established by State/Central Govt.

Duration: 4 Years

Ph.D IN LIFE SCIENCES (Botany, Zoology, Microbiology)

Eligibility: As per UGC norms

Duration: As per UGC norms

M.Sc. BOTANY

Eligibility: B.Sc. Medical with Botany as one of the subjects or BSC Botany (Hons) from a recognized Institute/University.

Duration: 2 Years

M.Sc. ZOOLOGY

Eligibility: B.Sc. Medical with Zoology as one of the subjects or BSC Zoology (Hons) from a recognized Institute/University.

Duration: 2 Years

M.Sc MICROBIOLOGY

Eligibility: B.Sc. Medical OR B.Sc Microbiology (Hons) or B.Sc. MLT from a recognized Institute/University

Duration: 2 Years

M.Sc BIOCHEMISTRY

Eligibility: B.Sc. Medical OR B.Sc Biochemistry (Hons) from a recognized Institute/University

Duration: 2 Years

M.Sc. Environmental Sciences

Eligibility: B.Sc. (Hons)/ B.Sc. Degree (10+2+3 system of education) in any science subject (any combination) with 50% marks, B.Tech./B.E. (Civil Engineering), B. Tech/B.E. Environmental Engineering"

Duration: 2 Years

DBU INTRODUCES

MINOR IN ARTIFICIAL INTELLIGENCE

**Desh Bhagat
University**
Research.
Innovation.
Entrepreneurship.

**NAAC
GRADE A+**
ACCREDITED UNIVERSITY

One Degree. Infinite Intelligence.

FOR ALL DISCIPLINES

Healthcare | Dental | Nursing | Ayurveda | Pharmacy
Engineering | Management | Law | Social Sciences
Library Sciences | Education & More

WHY A MINOR IN AI?

- AI applicable across all professions
- Enhances employability & future readiness
- No change to your core degree
- Credits aligned with top national & global benchmarks

WHAT YOU GET

- AI foundations for non-tech & tech students
- Discipline-specific AI applications
- Coursera-integrated global certifications
- Hands-on projects & real-world implementation
- Credit-based Minor reflected in records*

WHO CAN APPLY?

- All UG & PG students of DBU
- Across all faculties & programmes

A MINOR THAT MAKES A MAJOR DIFFERENCE

Not just engineers. Every DBU student.

Best Features

Well Equipped Laboratories

Digital Reservoir

Highly qualified and Experienced faculty

Eco Friendly Department

Agro Meterology Observatory

Ample Land area for Practical Experimentation

Poly House, Vermicomposting Unit and Biogas Plant:
Facilities for better and sustainable Agriculture

Faculty funded by DST and ICSSR for
Government research Projects

Students from Diverse places belonging to different
languages contributing to Unity in diversity

Advisory

PROF(DR) NEELIMA JERATH
Executive Director,
Puspha Gujral Science City,
Kapurthala .

PROF(DR) GURBACHAN SINGH
Former chairman,
ASRB, Agri Commissioner,
Govt of India,
Director CSSRI Karnal, ADG ICAR and
Founder President ISSWQ

PROF(DR) JASWINDER SINGH
Agriculture officer,
Fathegarh Sahib,
Punjab

DR DAVINDER PAL SINGH
Director and CEO,
Just Agriculture,
Jalandhar

MoUs & Collaborations

Certification from **coursera** for campus

AI AND PUBLIC HEALTH

**STANFORD INTRODUCTION
TO FOOD AND HEALTH**

**TRANSMITTING AND FIGHTING
INFECTIOUS DISEASES**

THE SCIENCE OF WELL-BEING FOR TEEN

BIOLOGY EVERYWHERE FOUNDATIONS

Faculty Members

Name	Designation	Specialization
Prof(Dr) HarvinderKaurSidhu	Professor Cum Dean	Botany
Prof(Dr) D.S Benipal	Professor	Soil Science
Prof(Dr) Ajay Gupta	Professor	Biotechnology
Prof(Dr) Ratan Singh	Professor	Genetics and Plant Breeding
Prof(Dr) Parminder Singh	Professor	Horticulture
Prof(Dr) Surender Singh	Professor	Plant Pathology
Dr. Vikas Tomar	Associate Professor	Agronomy
Dr. Manjeet	Associate Professor	Agriculture Extension & Communication
Dr. R P Singh	Associate Professor	Entomology
Dr. Shivam Kumar Verma	Assistant Professor	Agronomy
Dr. Rohit Kumar	Assistant Professor	Agronomy
Dr. VanpalBoyal	Associate Professor	Ag. Eco.
Dr. Santosh Tiwari	Assistant Professor	Ag. Eco.
Dr. Vikas Kumar	Associate Professor	Horticulture
Dr. Anand Kumar	Assistant Professor	Agriculture Extension & Communication
Dr. Avinash Kumar Bhatia	Assistant Professor	Agroforestry
Dr. Sachin Bhardwaj	Assistant Professor	Horticulture
Dr. Rajat Sharma	Assistant Professor	Plant Pathology
Dr. Jagdeep Singh	Assistant Professor	GPB
Dr. Dharmendra Kumar	Assistant Professor	GPB
Ms. SimranjeetKaur	Assistant Professor	Agro-meterology (Thesis Submitted)
Dr. Gaurav Jain	Assistant Professor	Animal science
Mr. Bharat Bhushan	Assistant Professor	Agri. Engg.
Dr. NavpreetKaur	Assistant Professor	Zoology

SCOPE

Agricultural and Life Sciences Programme provide creative education and necessary training in the broad agricultural Science and its allied fields. The vast and varied agricultural Science has different segments like Agronomy, Horticulture, Agricultural Economics, Biochemistry, Genetics, Farm Management, Forestry, Entomology, Microbiology, Food Business, Plant physiology, Plant biotechnology, Seed technology, Soil Science, Plant pathology, sericulture, floriculture etc. which will provide a wide range of career opportunities in government and private sectors such as Agriculturists, Farm managers, Agricultural Scientists, Agriculture Development Officers, Food microbiologists. They can also excel and progress for higher Education and Research.

STRENGTH

Well Equipped Labs as per State Council Norms

Highly Qualified Doctorate Faculty

Center of Excellence: Agro observatory Meteorology

Funded by Govt Research Projects: Department of Science & Technology, New Delhi and Impress, ICSSR, Govt of India

Laboratories & Workshops

Horticulture Lab

Horticulture is the main stream that deals with producing vegetables and fruits that completes our basic requirement of food and nutrition. Department has equipped horticulture lab. In addition to basic knowledge in horticulture, with practical experience, students will be familiar with a wide range of subject matter including plant identification, propagation, controlled environment production, horticulture information retrieval system, pruning, and lawn care, plants for interior uses, and fruits and vegetables.

Plant Breeding and Genetics Lab

This lab is equipped with basic instruments that help students to understand the basic concepts of genetics, helping students to develop their analytical, quantitative and problem solving skills. To provide insight into structure and functions of chromosomes, chromosome mapping, polyploidy and cytogenetic aspects of crop evolution.

Plant Pathology

Plant Pathology lab deals providing basic knowledge about the laboratory equipment and their working, culture media, procedures necessary for sterilization, culturing of microorganisms. Student are made familiar with the identification and growth of microorganisms in culture.

Biochemistry Lab

This subject deals with the understanding of chemical processes associated with living cells at the molecular level. The lab provides controlled conditions in which experiments may be performed. The lab practices include evaluation of nutritive value of cereals, pulses, biochemistry of disease and pest resistance.

Soil Science Lab

The lab deals with the basic experiments that are used in the practice of soil analysis. Student understand the importance of soil texture, its nutritional value, soil management and field crop production. The lab is well equipped with all basic equipment required for the testing of soil.

Entomology Lab

The subject deals with understanding the structure and function of insects and their role in agriculture. The lab is having all basic required equipment that are used for collection, analysis and storage of insects. Specimen present helps in understanding their morphological characters and life cycles.

Farm Machinery Lab & Workshop

The lab is well equipped with machines and tools. Students are given demonstration for working and repair of the machinery used in Agriculture

Agronomy Lab

The Lab has also equipment's related to crop physiology. It includes sprayers, Weighing Balance, Brix meter , EC meter etc.

Agrometeorology Observatory

The said observatory is equipped with latest equipment's like rain gauge, Sunshine recorder, Anemometer ,soil thermometers . All are required for weather forecasting of a region.

Animal Science Lab

Students get practical exposure to all equipment's like Brooder , Egg hatcher , vaccinators ,milk analysers , fat estimators, Feederetc concerned with dairy and livestock

Events & Activities

Inauguration of 27th Punjab Science Congress 2024

Release of Souvenir of 27th Punjab Science Congress 2024

Foundation Stone of Agrometeorology Observatory by Prof(Dr) S.S Gosal, Vice Chancellor, PAU, Ludhiana

Appreciation to Prof(Dr) H.K Sidhu by Punjab Academy of Sciences, Patiala

Students participation in Lohri 2024

Students Participation in Alumni Meet 2024

Awareness Program on Crop Residue Management in Desh Bhagat University.

Students participation in Annual Athletic Meet 2024 : Won Best March Pass

National Science Day: 2024

Students won various awards in Annual Athletic Meet 2024

Mr. Sonu Kumar, B.Sc (Hons.) Agriculture 2nd year Participate in Speech Competition (Topic: Crop Residues Management) and win first prize

National Science Day 2024

ANVESHAN (at North Zonal and National Level)

Students Engaged in Experiential Learning in Polyhouse

Vermicompost Unit
