About Desh Bhagat University

Desh Bhagat University (DBU), Mandi Gobindgarh (District Fatehgarh Sahib, Punjab), was established in 2012 under the Desh Bhagat University Act. The University is named after freedom fighter Sardar Lal Singh, honored with the Tamra Patra by the Government of India. DBU is NAAC A+ accredited (since 2023) and UGC-recognized with 2F and 12B status. University is entitled by UGC for Open Distance Learning and Online Education since 2024.

DBU is genuinely multidisciplinary, running 11 faculties and 98 + programmes spanning Ayurveda, Dental Sciences, Nursing, Pharmacy, Agriculture & Life Sciences, Engineering Technology & Computing, Hotel Management, Management & Commerce, Liberal Arts, Education, Clinical Psychology, Legal Studies and Allied Health Care Sciences— approved by UGC, PCI, INC, BCI, NICSM, PSCAE, DCI, NCERT, RCI and other statutory councils. It hosts around 15,000 students and has built 174+ international MoUs. University has highly qualified 531 faculty members with about 1062 Research Papers and Books/Chapters publications in National and International Indexing.

Background & Rationale

The National Education Policy (NEP) 2020 explicitly recognizes India's ancient and continuing knowledge traditions — Jnana, Vij nana and Jeevan Darshan — as a guiding principle for higher- education reform. In pursuance of this, the Ministry of Education created the Indian Knowledge Systems (IKS) Division (housed at AICTE) to coordinate interdisciplinary IKS research across institutions in India and abroad, fund IKS Centers, run a Competitive Research Grants programme, and issue policy recommendations; UGC and AICTE have followed with curricular guidelines, and the National Credit Framework now allows credit for courses in traditional Indian sciences and arts.

DBU's multidisciplinary strength across health sciences (Ayurveda, Dental, Nursing, Pharmacy, Allied Health Care Sciences), STEM (Engineering, Computer Science, Agriculture, Life Sciences), Leadership and Innovation (Management, Hotel Management and Commerce), Education and Psychology, Humanities (Liberal arts Including Social Sciences, languages, Media, Fine Arts, Physical education and Library sciences) allows it to convene a 5-track conference that no single benchmark institution currently offers at this breadth — a clear differentiator to present to Government funding agencies and to potential collaborators.

Objectives

- To create a national and international multidisciplinary platform for scholars, practitioners and policymakers to interact on Indian Knowledge Systems.
- To provide PhD scholars, PG/UG students and faculty with a structured platform for presenting research papers, publication and networking with national and international experts.
- To build lasting academic partnerships with Indian and International universities and research bodies working on IKS
- To generate quality, peer-reviewed research outputs publishable in UGC-CARE and other Indexed journals
- To align DBU's academic activities with Government of India priorities under NEP 2020 and the IKS Division of Ministry of Education/AICTE
